**MEMORANDUM FOR:** Deputy Director for  
Science and Technology

**THROUGH:** Assistant Director for  
Scientific Intelligence

**SUBJECT:** Review of PSAC's Recommendations  
on Cybernetics

DD/ST# 1440-65

Pursuant to your request, a meeting to review the PSAC Panel's report on cybernetics has been scheduled for 19 March 1965 from 1400-1500 hours. Although the initial thought was to ask only the Panel Chairman to discuss their recommendations, it now seems more appropriate and time saving to have available at this meeting an interdisciplinary group which will assure a balanced picture of the subject. Moreover, should you desire to pursue any facet of cybernetics in more detail, there will be adequate talent available. Thus, I have taken the liberty to invite the following members of the Cybernetics Panel to attend:

Walter Rosenblith	M.I.T.	Chairman
Ross Adey	U.C.L.A.	Professor of Neuro-physiology
Leo Hurwicz	Minnesota	Professor of Economics
Peter Bing	Office of Science & Technology	Executive Secretary

Signed:

Chief, Life Sciences Division  
Scientific Intelligence
